“Enhance your home & extend your living space”

CENTURION AWNINGS

Manufactured for the trade by VSS Blinds

Fully automated, offering complete control

SOMFY

RTS technology : a Somfy innovation

Somfy offers a wide range of motorisation options for this awning. From a simple, push button manual control; one button for 'Up', another for 'Down' and a third in the centre to stop the awning in an intermediate position, to a wireless automatic sun and wind control unit. The Soliris control will monitor the weather, providing shading when needed and retracting the awning when strong winds are threatening.

By choosing a Somfy motor and control, your awning is much easier to use and will be more reliable.

Ask your
Centurion dealer
for more
information.

**The Centurion Awning Range is available as
standard in a wide range of acrylic fabrics
from Vachet and Para.**
